What's in the Box

DrivePro Body Toolbox™ Software

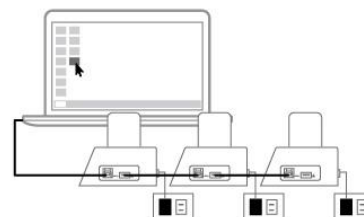

DrivePro Body Toolbox™ is a video file management software which simplifies the settings of the camera. DrivePro Body Toolbox features a user-friendly interface that allows Windows users to set the basic functions of the DrivePro Body series.

For DrivePro Body series with password protection function, DrivePro Body Toolbox offers an extra level of data protection. To use for the first time, please change your password with the default password "12345678".

- 1 Download the installation files from: www.transcend-info.com/downloads
- 2 Install DrivePro Body Toolbox software on your desktop or laptop.

Connecting with other Docking Stations

Using just one USB port on computer, the dock can be connected with 2 more docking stations, allowing up to 18 DrivePro Body series (except for DrivePro Body 10) to charge and upload at the same time.

Technical Support

Contact Transcend for more in-depth technical support at: www.transcend-info.com/support/contact
