

## Body Cameras

# DrivePro™ Body 10

Transcend's DrivePro Body 10 is the best companion for police officers, security guards and other professionals. The camera uses STARVIS™ high-sensitivity image sensor, high-quality lens, and automatic infrared illumination that ensure all the important details of actions are clearly recorded. The DrivePro Body 10 also features a built-in battery and excellent water and shock resistance, making it ideal for indoor and outdoor use.

### STARVIS™ high-sensitivity image sensor

Transcend's DrivePro Body 10 features the STARVIS™ high-sensitivity image sensor to capture high-resolution video and photos with superb, rich color. Even in low light, images are highly detailed with low noise and excellent dynamic range.

### Infrared LEDs for night vision

Transcend's DrivePro Body 10 has four no-glow (940nm wavelength) infrared LEDs that automatically turn on in dim light to enhance night vision capabilities. This drastically increases recording quality in pitch-black darkness.

### Built-in battery

With a built-in Li-Polymer battery, the DrivePro Body 10 can record up to 5 hours of footage on a full charge, mitigating the need for a power adapter for police officers on duty.
